Messys. Weeks & Potter:

Gentlemen.—I have suffered over thirteen years with skin alsease in my hands and limbs, causing constant irritation, espitying me of rest and attention to business. I rought many remedies here and elsewhere, also use of sulphur baths, without permanent cure. Last May a physician called my disease Eczena Rodent; spots appeared on my hands, head, and face, eves became much inflamed and granulated, causing at length impaired sight, Internaland external remedies were prescribed by a leading physician for six months, was then introduced to another, and a consultation of seteral leading physicians was had, when a definite olan was cecided upon, but all to no purpose. After following advice for fear months without any permanent cure, I bought two boxes of CUTICURA, and some SOAP, and can testify with great pleasure to the effect they have had in my case, in eight days being nearly cured. The physicians pronounced my case the most aggrance. Messrs. Weeks & Potter :
